

# INSANITY CASE ON TRIAL TODAY

Contractor Whose Pavement Was Attacked Has Attorney to Aid Prosecutor

DEFENSE SAYS RIGHT, NOT INSANE

Several Witnesses Say That Mrs. Clayton Has Acted in Irrational Manner

Not for a second does Mrs. W. H. Clayton of Orange and her attorney B. E. Tarver, admit that Mrs. Clayton is or has been insane. The question put by Attorney Tarver to witnesses intimate that the defense will admit that at times Mrs. Clayton was angry in her strenuous manner of fighting the acts of city officials at Orange. The defense has contended from start to finish that the woman is not insane, only right and—say enthusiastically.

A number of witnesses were put on by Deputy District Attorney Koepsel this morning to prove that Mrs. Clayton has shown herself to be irrational. Mrs. Clayton's arrest came last Monday on a complaint sworn to by E. R. Werdin, street contractor. Emphatically the woman did not believe Werdin's pavement was up to specifications, and she proposed to find out before she paid her paving bill, about \$2,000. She was engaged in cutting a hole through the pavement when she was interrupted. Her dressing-down administered to two or three persons at that time was reviewed in the testimony taken at the insanity hearing this morning, held before Judge West.

The two physicians called by the court to examine into the sanity of the belligerent woman from Orange were Dr. Royer of Orange and Dr. Ball of Santa Ana. Contractor Werdin, whose pavement Mrs. Clayton attacked, was there in the role of complainant and first witness. He was represented by an attorney, Leo Youngworth of Los Angeles, formerly United States marshal. Youngworth was associated with the prosecuting attorney in the hearing.

Throughout the hearing a noticeable coincidence in the testimony was observed. Nearly every witness said he had talked with Mrs. Clayton but twice. Just what would have happened if any of those witnesses had ever happened to have had a third meeting is something that spectators might take under advisement.

**Werdin Hazy**

Werdin was quite positive on some things but on the whole was not what a lawyer would call a good witness. He said he is the contractor who laid the paving in front of Mrs. Clayton's property. He had talked to her just twice. Once was last Friday evening when he said she met him in front of her house and told him: "I will kill you." She said she wanted an itemized statement of her paving bill. He told her he did not make out the bills, the city did that. She told Werdin she had detectives on his trail and had the goods on him. Last Monday he happened to be passing by North Glassell when he saw Mrs. Clayton digging a hole in the street. He said he believed he told City Marshal Warner to arrest her. At that time she called him "a thief, rascal and so forth." He saw her leave the place "cursing."

Tarver—"You say cursing? Exactly what did she say?"

Werdin—"Well, that she would make it hot for me and so forth."

Tarver—"Is that your idea of cursing?"

Werdin—"Your idea and mine as to what cursing is might differ."

Tarver—"This paving had been accepted. What concern was it of yours if Mrs. Clayton or anyone else should cut a hole in it?"

Werdin—"I like my paving to be kept in good shape. I take an interest in it."

Werdin said the woman acted strangely, and from his experience with insane people and the expression of her eyes he thought she was irrational. Dr. Ball wanted to know if he could give one instance of a hallucination of Mrs. Clayton. Werdin said no, that he was not a physician and couldn't go into the professional end of the matter.

**Threatened Him**

J. W. Morrison testified that a year and a half ago Mrs. Clayton called him a vile name and said: "If you dare raise money for me, I'll fill you full of holes." Morrison had been out raising money to pay a widow's assessment, and evidently Mrs. Clayton thought the donation was for her. Morrison said he had received two threatening letters from her.

In cross-examination, Tarver stated that the whole trouble at Orange over Mrs. Clayton is that there is a political row on over there, rather than

It is variously estimated that 1000 to 3000 men are out. Eight hundred men are affected here. **Cases Continued**

George H. Bixby, Long Beach millionaire, in contempt proceedings yesterday explained that he was ill when served with a subpoena several days ago to appear in Justice Reeve's court as a witness in the case of Mrs. Josie Rosenberg, charged with pandering. The case was continued until Justice Reeve could communicate with Deputy District Attorney Ralph Graham.

The case of William LaCasse, automobile man, charged with statutory offense against Evelyn Quick, was also continued by Justice Reeve. Miss Quick was under cross examination as to age, she claiming to be but 15 years old.

Justice Reeve dismissed two complaints charging Mrs. Rosenberg with pandering, as she has been indicted on the same charge, thus taking the case into the superior court.

**MICHIGAN WOMEN TO AGAIN SEEK VOTE ON SUFFRAGE**

MADISON, Wis., May 7.—The women suffragists, beaten at a referendum vote last fall, but not discouraged, won a decided victory last night, when they secured the final passage of a bill providing for a referendum on the same question in the fall of 1914. The popular vote on the question will be on a constitutional amendment giving women the same right of suffrage as men, identically the same plan defeated last year. The bill has already passed the state senate and will probably be signed by the governor today.

## GHASTLY FIND UNDER OLD HOUSE

OAKLAND, May 7.—The police here believe that wholesale murders may have been unearthed today when excavators beneath an old house in the center of the city found what is believed to be the skeletons of a woman and five children. The woman is unusually large. The oldest child is apparently about 16 years of age and the youngest is a mere babe. The bones of the latter are wrapped in a paper bearing the name of a business man of Tancred, Calif.

The house stood next to an old church under which robbers a year ago tried to tunnel to the Bank of Commerce. The skeletons were buried under half a foot of earth. The officers believe the bodies were destroyed with acid, merely the bones remaining. These, with the exception of the baby's are mixed. The bones are in an excellent state of preservation. The paper about the baby's remains indicates the crime is recent. The police began a search for all the families ever occupying the house.

## TARIFF BILL DEBATE IS LENGTHY

Administrative Features of Measure Take Attention of the House

PHILIPPINES AND PORTO RICO TARIFFS DISCUSSED

Tariff Commission and Power of President to Make Treaties Also Considered

WASHINGTON, May 7.—The house today began a long debate on the administrative features of the Underwood tariff bill. The debate included a renewal of the fight for the authorization of a tariff commission. Other proposals debated included the authorizing of the President to negotiate reciprocal trade treaties with foreign nations.

Other matters for debate were propositions taxing Philippine imports, exempting exports to Porto Rico, providing retaliatory duties against merchandise from countries which tax similar merchandise, and permitting a rebate of 10 per cent on merchandise imported in American vessels. The house minority proposed a demand for separate roll calls on many features of the bill, but that Majority Leader Underwood will insist on the passage of the bill tomorrow is certain.

The house defeated the income tax amendment exempting all mutual insurance companies without capital stock and share holders or stockholders by 198 to 68.

**HUERTA ISSUES MILITARY DECREE**

Declares Service Universal and Obligatory—Upper Classes Affected

DOUGLAS, Ariz., May 7.—An official call for the Mexican national election on October 26 was promulgated today. Felix Diaz is the only presidential candidate. The indications are the call will be ignored in Sonora, the Sonora people remaining loyal to the new constitutional government.

The constitutional government today seized the palatial home of Don Luis Torres, for twenty years governor of Sonora, at Hermosillo, to use for a public hospital. Through a lottery it will raise funds to equip it for a modern institution. The home is said to be one of the three finest specimens of Moorish architecture in North America.

**HUERTA DECREES FOR UNIVERSAL WAR SERVICE**

MEXICO CITY, May 7.—President Huerta today issued a decree making military service obligatory and universal. In case of a foreign war no one is excepted. The only exemptions in times of peace are the fathers of families that are wholly dependent on them for support and veterans who have served five years in the army.

Military instruction is obligatory for all without any exception.

Governors of states and other state and city officers will be held responsible for strictly enforcing the conscription law in their districts. The decree is causing much excitement in the middle and upper classes, who heretofore have taken only a passing interest in the republic's troubles.

Los Angeles, Calif., May 1, 1913.

—We have had the misfortune of losing, at least temporarily, the services of Mr. J. C. Delaney, our District Manager at Placentia and Brookhurst, whose recent mysterious disappearance is evidently due to accidental causes. This will, however, by no means, cause us to cease operations in the two districts, or give up such business as has already been lined up there for this and future seasons.

We will be in position to continue operations as formerly, and in order to facilitate matters, will appreciate it if all the growers who have been shipping through us, and those who intend shipping through us, will immediately get in touch with our Mr. P. B. Foss of San Dimas; who will take temporary charge of the Placentia and Brookhurst districts. Packing and shipping of the fruit, as arranged for by you with our Mr. Delaney, will be taken care of by our Mr. P. B. Foss, and your co-operation, as requested, will prove of mutual benefit to all concerned, and will be appreciated by

### CALIFORNIA'S PATRIMONY

Former Governor George C. Pardee, who framed the Conservation bill, spoke at the weekly Progressive luncheon on the subject of "California's Patrimony." He described the waste of natural resources that has already taken place and made strong appeal for a wiser policy in the future. Governor Pardee spoke as follows, in part:

"Whenever I think of California's patrimony, I am reminded of the parable of the Prodigal Son, who 'wasted his substance with riotous living. And when he had spent all, there arose a mighty famine in that land, and he began to be in want.'"

"California, peopled, at first, by the prodigal and reckless Argonauts of '49, has never, until very lately, realized that her patrimony is of priceless worth, and that the final possessors of it will be able to wring from those dependent upon it the very substance of their financial livelihood."

"There are not a few among us who realize that the destruction of her once magnificent forests enables the great rivers of China to lay, at short intervals, their destructive hands upon the lives of myriads of the subjects of that country, and to cause other starving myriads of them to become the recipients of the charity of a plying world. Those of us who have read our Bibles remember how, in the time of Him who was crucified, the Holy Land 'flowed with milk and honey,' and supported a teeming and happy urban and agricultural population. Those who are best able to judge assure us that her present aridity and the sparseness and squalor of her present population are the direct results of the merciless destruction of the forests that once protected her rivers and springs."

"There are two landed proprietors in California—one a corporation, the other an individual—who each own three-quarters of a million acres of the best timber land in the world. If 131 other corporations or individuals each owned a like area of California's 100,000,000 acres, no other man, nor woman either, could own a single square inch of land, or water either, from Siskiyou to San Diego, from Nevada to the sea."

"The combined areas of these two holdings of California's forest-patrimony is 2342 square miles. The Southern Pacific's share of California's forest-patrimony was given to it on the condition, expressed and understood, that it would dispose of it, in parcels not greater than 160 acres, at a price not greater than \$2.50 per acre, to actual settlers. We wanted a railroad built 'to open and settle up the country,' and we were willing to donate something like \$2,000,000 in timberlands to help the good work along. The corporation, however, sold some of the land for \$10 to \$50 per acre, and in parcels greater than 160 acres."

"It claims that the term 'actual settlers' referred only to the handful of people who had 'actually settled' in the wilds of Tehama, Shasta and Siskiyou counties when the gift was made. That was half a century ago, when the whole state of California had only a million or so of people."

"If the corporation is permitted to hold those 750,000 acres of timberland until it is able to dispose of them for the \$100 per acre they will soon be worth, California's posterity will be compelled to pay \$75,000,000 for that portion of their patrimony which their prodigal fathers gave away for nothing."

"In the meantime, the counties of Tehama, Shasta, and Siskiyou remain sparsely settled and will continue so

until the value of the timber having reached the figure that the corporation is holding it for, 'actual settlers' who can pay \$100 per acre migrate into that country."

"Legislatures have come and gone; Governors have been elected to and retired from office; district attorneys, grand juries and judges have busied themselves with the punishment of an army of criminals. But what has been everybody's business in regard to the crimes against the people and their patrimony has been, because there have been too few Roosevelts, Johnsons and Heneyes, too often nobody's business."

"There is in this state falling water enough to produce 5,000,000 horsepower of electrical energy. To move all our street cars, light all our lights and do all the other things that electricity now does for us, we use about 350,000 horsepower. Those 350,000 horsepower are worth, even at present values, \$200 each, or \$70,000,000 in the aggregate; at the same rate, 5,000,000 horsepower are worth, to their present owners, the people of California, \$1,000,000,000."

"The falling water that produces the 350,000 horsepower of electrical energy we are now using always has belonged, belongs now and always will belong to the people of California—it is a part of their patrimony. But we have already given away, for nothing and forever, the right to use that \$70,000,000 worth of our patrimony. As has been the result of the giving away of other portions of our patrimony, we have been compelled, are being compelled and will be forever compelled to pay returns on the constantly increasing value of that which we, like the Prodigal Son, 'wasted with riotous living.'"

"One power company—a fair sample of all the rest—is capitalized for \$20,000,000. Of that sum \$6,000,000 is, literally, 'water,' our water. It represents the value, the constantly increasing value, put by the company on the right-to-use a small portion of our water-patrimony, which right-to-use we prodigally gave away for nothing and forever."

"At six per cent, therefore, we are compelled to pay, to this one company, a present, but constantly increasing tribute of \$340,000 for the privilege of using electricity generated by falling water belonging, from the beginning and forever, to us."

"If we should continue to be Prodigal Sons with our water-right-patrimony until the entire 5,000,000 horsepower have been given away, future generations of Californians will be compelled to pay, as we are paying, a constantly-increasing tribute for the privilege of using the products of their water-patrimony. The value of that patrimony is easily \$1,000,000,000. Our children will be compelled to pay at least \$120,000,000 of annual tribute to those to whom we give it."

"We thought and we still think that a railroad monopoly is a bad thing. But that kind of a monopoly is as harmless as the traditional dove compared with an electrical monopoly. Electricity will, within the lifetime of many now listening to me, do nearly everything, from the housewife's to the farmer's work. He, therefore, who has a monopoly of it will rule us with a stronger hand than anybody else can rule us."

"That such a monopoly is forming—has been fragmentarily formed in this state goes without saying. To deny it is to proclaim ones own foolishness, ignorance or guile. If we continue to give away, like the old-time Prodigal Son, the right to use our water-patrimony, that monopoly will be all the surer to come and all the harder to command and regulate."

"We are all conservationists. But we want only those things conserved in which we have no financial interest. The timbermen are quite insistent that the water shall be conserved—that his patrimony in it shall not be wasted. The waterpower people are equally insistent that the forests shall be conserved—they do not want that public patrimony to be wasted. But the timbermen are quite sure that the forests should be left to them to conserve—that the public patrimony is quite safe in their hands; and the waterpower people are convinced that the salvation of the country depends on the present status of the water laws being preserved. But we are all good conservationists, nevertheless."

"To keep vegetables fresh and crisp dip a muslin bag or cloth flour sack (after it is cleaned) in cold water, wring it lightly, put in the vegetables and hang where the air can strike it."

A flatiron stand will be found useful on the range to keep the contents of a saucepan warm without danger of burning; it is also useful when one desires food to simmer; there is then no risk of sticking or burning on a hot stove.

To clean steel ornaments of rust and discoloration rub them with a brush dipped in paraffin oil and then in emery powder. Polish them with a dry chamois. A lump of camphor placed in the box with them will keep the steel ornaments bright.—Spokane Chronicle.

### DESERT TOWNS ARE STILL TO BE WET

Redlands Fails to Give Usual "Dry" Majorities; Decision For Saloons Decisive

SAN BERNARDINO, May 7.—The desert of San Bernardino county, in area as large as some entire states, refused at the polls today to banish the saloon that has flourished for half a century. The vote is decisive, although it will be several days before some of the precincts will be heard from. It is probable that the majority for licensed saloons will go to 500 votes.

The vote was heavy with the exception of the "dry" precincts on this side of the range in the Redlands territory, where the usual "dry" majority did not turn out.

### NOMINATIONS THAT ARE NOW EXPECTED

WASHINGTON, May 7.—President Wilson was informed through Ambassador Chinda yesterday that George W. Guthrie, former mayor of Pittsburgh, was acceptable to the Mikado as ambassador to that country. The appointment is expected to go to the Senate for confirmation today. Another definite announcement was made that William E. Gonzales of Columbia, S. C., will be named as minister to Cuba.

A long list of names is now being considered from which diplomatic appointments are to be made. Here they are as given at the White House:

Justice James W. Gerard, New York; Augustus Thomas, New York; Frederick A. Allen, New York; James E. McLean, San Francisco; Joseph Willard and William Penfield, New York; Charles R. Crane, Chicago; John E. Lamb, Indianapolis; P. A. Stovall, Savannah, Ga.; Rudolph Spreckles, San Francisco; Thomas Nelson Page, Virginia.

### CORNELL STRIKES BLOW AT SOCIAL CLUBS OF COLLEGE

ITHACA, N. Y., May 7.—Cornell undergraduates, through the senior societies and with the support of the student conference committee, struck a blow for democracy in college life yesterday. The two senior societies, Sphinx Head and Quill and Dagger, put a ban on the so-called social clubs, which means they must disband.

These clubs, of which there are about a dozen, succeeded the obnoxious hat clubs which the faculty disbanded several years ago.

According to the charges of the college press and the undergraduates generally, these organizations are merely to get the men together for drinking in downtown cafes and are "snob breeders" of the worst type.

## COMMISSION MAY ISSUE SUBPOENAS

'Frisco's Police Tribunal Has New Proposition Put Up to It in "Bunco" Cases

SAN FRANCISCO, May 7.—Something new was sprung on the San Francisco police commission today in connection with its intended hearing tomorrow of charges against eight policemen accused of complicity in the operations of a crew of bunco men who have cleaned up \$300,000 here by frauds, according to allegations made by victims. Attorney Thomas O'Connor sprung the coup when he demanded that the police commission itself subpoena the witnesses on whose testimony the detectives are to be tried. These witnesses are practically the entire case for the prosecution and include the alleged victims of the bunco men, and also Caesar Rochi, the proprietor of a well known Barbary Coast resort; Mike Gallo, Frank Dubois, Frank Corrigan, Maurice De Martini, the latter four being convicted bunco men. It is not known how the commission will act. The defense meanwhile is waiting.

### AUTOS MAY ENTER YOSEMITE JUNE 1

Believed Final Action and Route Selection Will Be Made By That Time

WASHINGTON, May 7.—Secretary of the Interior Lane received a telegram from Major Little Bryant stating that a report on the Coulterville road into the Yosemite Valley has been mailed and that the report on the Big Oak Flat road will be ready within a few days.

Until the reports are completed, no final action will be taken on the route for the admission of automobiles to the park, but it is expected that all the preliminary arrangements will be made before June 1 and that automobiles will be admitted about that date.

### SPRINGTIME IN ENGLAND

[By J. E. Mills, in N. Y. Independent.]

A blackbird greeted me today,  
On swiftly moving wing;  
And as it passed it seemed to say,  
I'm glad because it's spring.  
Near where I stood a linnets sang,  
Hid in a hawthorn bush;  
And overhead midst apple bloom,  
I heard the speckled thrush.  
Borne on the breeze cuck-coo, cuck-coo,  
Comes to my listening ear;  
Thou vagrant bird of alien ways,  
Thy cry assures, the spring is here.  
A brook that ran thru meadows green,  
Sang its song to me,  
It filled my heart with purest joy,  
With sweet tranquility.

Primrose, cowslip, buttercup,  
In field and lane abound,  
And in sequestered paths and nooks,  
The fragrant violet's found.  
The gardens all are glorified,  
Dressed in living green;  
Tulip, crocus, hyacinth,  
In every garden seen.  
The alder and the common gorse,  
The daisy prim and neat,  
A thousand other plants and trees;  
'Tis paradise complete.  
A joy supreme is England's spring;  
The land with flowers crowned,  
Home of my youth, I love thee well;  
To me 'tis hallowed ground.

## KING ALFONSO IN FRENCH CAPITAL

Arrived Safely in Spite of Alleged Anarchistic Plots—Is to Discuss Entente

PARIS, May 7.—Despite the reported anarchistic plots against King Alfonso of Spain, he arrived here safely today for a three days' visit. He will discuss the proposed Franco-Spanish commercial entente with President Poincaré.

The French newspaper "La Patrie" says the Spanish revolutionists are planning a great demonstration to night before the Spanish embassy.

ANARCHISTS ARRESTED FOR PLOT AGAINST KING'S LIFE  
BORDEAUX, May 7.—Two Spanish anarchists were arrested here yesterday on suspicion of being concerned in a plot against the life of King Alfonso, who started from Spain yesterday with his suite for a visit to the French capital.

King Alfonso received the greatest sendoff ever known here when he made his departure for Paris. Public opinion has been deeply stirred over the recent attempt on his life and the great precautions that have been taken in France to protect him against anarchists.

### WORTH KNOWING

Boots and shoes, however damp, will polish in a few minutes if a drop or two of paraffin oil be added to the blackening. It also prevents the leather from cracking.

To keep vegetables fresh and crisp dip a muslin bag or cloth flour sack (after it is cleaned) in cold water, wring it lightly, put in the vegetables and hang where the air can strike it.

A flatiron stand will be found useful on the range to keep the contents of a saucepan warm without danger of burning; it is also useful when one desires food to simmer; there is then no risk of sticking or burning on a hot stove.

To clean steel ornaments of rust and discoloration rub them with a brush dipped in paraffin oil and then in emery powder. Polish them with a dry chamois. A lump of camphor placed in the box with them will keep the steel ornaments bright.—Spokane Chronicle.

## THEY LUNCHEONED TOGETHER

Mrs. G. P. Hill Hostess at "Getting Acquainted" Luncheon For Federation Officers

The officers of the County Parent-Teacher's Association formed at Anaheim on Saturday, March 22, met yesterday at the home of Mrs. G. P. Hill, 1162 Spurgeon street, at a "getting acquainted" luncheon.

These ladies from various points of the county were elected to office when the organization of the federation was made complete and had no time to more than meet each other. Mrs. Hill, as president of the federation, acted on the happy idea of the luncheon to promote acquaintance, hence the affair of yesterday.

The luncheon was a four-course repast with roses used in table decorations. Covers were laid for Mrs. Hill, hostess and president; Mrs. Geo. H. Goodale of Anaheim, first vice-president; Mrs. G. Wilcox, Buena Vista, second vice-president; Mrs. Donna Hollaway, Yorba Linda, third vice-president; Mrs. A. G. Flagg, Anaheim, recording secretary; Mrs. E. E. Edwards, Fullerton, corresponding secretary; Mrs. Fred Snyder, Fullerton, treasurer; Mrs. Irene Wilson, Brea, auditor; Mrs. W. B. Tedford, Santa Ana, historian; Mrs. F. H. McKee, Santa Ana, president of Santa Ana Federation of Parent-Teacher's Associations, Mrs. L. C. Yoeman of Anaheim, who is parliamentary of the County Federation, was the only one of the County Federation officers absent. She was called north unexpectedly.

After the luncheon where social chat added to the pleasure of the occasion and where the "getting acquainted" program was initiated, the ladies held a conference as to future work. They also selected a number of superintendents of departments, the list to be completed later.

The spirit of enthusiasm over the outlook for the usefulness of the County Federation was strong at yesterday's meeting. The federation will make earnest and intelligent effort to advance the educational interests of the county by co-operation with the teachers and by a more intimate acquaintance with the methods and needs of the schools.

It is likely that the County Federation will be represented at the Congress of Mothers soon to be held at Berkeley, by Mrs. G. P. Hill of this city and Mrs. Irene Wilson of Brea, while Mrs. Frank H. McKee is expected to represent the City Federation.

Those present besides the hostess were Mesdames W. L. Grubb, who will be hostess at the next club meeting; W. P. Lutz, Robert Shafer, Russell Scott, Rosea Whitted, E. S. ## MRS. EDSON STOOD ON RIGHTS AND WALKED IN

SACRAMENTO, May 7.—There is woe and wailing and gnashing of teeth among the lobbyists who flock around the Senate chamber, but not by one Mrs. Charles Farwell Edson of Los Angeles, who comes near being the most energetic of the lobby flock.

An order was issued yesterday to clear the lobby, and the lobbyists are to be barred from the rest of the session. In the afternoon Mrs. Edson was stopped at the door. "You can't go in," was the curt command of the doorkeeper.

"Why, of course I can go in. I am a state officer. I am a deputy of the labor commission."

And she did. Now her work is easier than ever, for she has the lobby to herself.

## BENEFIT CONCERT

Choir Director to Be Honored by Choir—Concert Next Friday Night

The choir of the First Baptist Church are arranging a compliment to their choir director, W. A. Benjamin, who has been critically ill for some weeks, but is improving.

The concert will be given Friday evening at the First Baptist church, and is being arranged by Percy K. Lusk, the organist. Both the piano and pipe organ will be used in the excellent programme that has been made up.

Such artists as Mrs. James Rice, Misses Ruth Deardorff and Edna Ames, Prof. C. A. Gustlin, James Willis Rice, J. H. Govan and Percy K. Lusk will appear on the program.

This musical hour will be a rare treat to music lovers and the silver offering will be a token of sympathy and greeting to Mr. Benjamin.

## U. S. C. Glee Club Coming

The Southern California College Glee Club will make its annual appearance in Santa Ana, Friday, May 9, giving two of its popular entertainments in Spurgeon's Hall on Fourth street. The club has planned a very unique way of advertising, having arranged to give out over 500 tickets to school children. This ticket and 10 cents will admit any child to the matinee at 3:15 p. m. Parents can accompany their children to the afternoon matinee by paying the regular admission. The evening entertainment will begin promptly at 8:15.

This club gave forty-five concerts last year, and were so well liked that they are singing to the same crowds this year. They have been called as far east as Chicago and to most of the principal cities en route. They gave a most varied program, one that meets the taste and liking of everyone, ranging from the highest grade of music to the popular songs of the day.

One of the special features of their program is the work of the cartoonist, Phillip Swaffield, who does a series of chalk studies, strictly new, intensely interesting and humorous. Kurchoff as a monologist is something new in his line, and he will guarantee to remove the very worst case of grouch.

The concert is being given under the auspices of the Epworth League of the First Methodist church. Tickets are now on sale at the White Cross Drug Co.

**Parliamentary Section**

## FATHERS ARE ENTERTAINED

Mothers and Sixth Grade Pupils of Spurgeon School Hosts at Pleasant Evening

The auditorium at Spurgeon grammar school was well filled yesterday evening when the fathers responded to an invitation to attend the Parent-Teacher's Association, with the mothers as hostesses.

The school orchestra delighted the parents by their efforts, giving several numbers which were greatly appreciated. The little playlet given by the sixth grade boys was well rendered. "The Man Without a Country" being represented in a pleasing manner by Ralph Barker and fifteen other boys who participated as lieutenants and officers, showing thorough training in their roles.

Miss Naomi Lilley very graciously gave a humorous reading. The sixth grade girls gave a graceful little folk dance, "Heap the Flax," that was well received.

A business session followed, after which delicious home-made cake and coffee were served to the elders, the youthful orchestra and younger members being served with punch and cake.

## Mission Circle Meeting

The members of the Girls' Mission Circle of the First Baptist Church met last night at the home of Misses Mabel and Marian Drew, corner of Hickey and Patton streets. The subject of study for the evening was "Medical Missions" and articles on that topic from "China's New Day," the text book used by the Circle, were read by Miss Lucy Hill, Miss Alberta Black and Miss Edna McMurphy. A piano duet was played by Misses Marian Drew and Evelyn Severance.

Following the program the Circle girls enjoyed delicious ice cream and cake. Besides the members of the Circle, the superintendent, Miss Emily Cox, was present at last evening's meeting.

Los Angeles Tribune: With the swift strides of a young giant, the lettuce industry, one of the newest of Southern California's many industries, is advancing. The present season now drawing to a close will record a gain of 22 per cent in the number of cars shipped last season, according to railroad freight officials.

Three hundred carloads of the crisp-leaved heads, shipped from this region to eastern markets, will be the record from September to June, judging by present indications. Two hundred thousand bushels of potatoes will be produced in Southern California this season, according to present estimates, and shipments will be made during June, July and August, chiefly. In some districts, however, the new potatoes are beginning to appear on the tables.

About 4000 acres have been planted in potatoes as compared with 12,000 acres last year, when there was an over-production.

**REDLANDS WILL SWAT THE FLY IN LIVELY CAMPAIGN**  
REDLANDS, May 7.—Plans to make Redlands "the flyless city," carrying out the idea launched last fall by the board of health, were approved at a recent meeting of the chamber of commerce.

It is planned to add materially to the 100 fly traps already in use in the business section of the city, as well as to place many in the residence section, especially in the neighborhood of stables and other places where flies thrive.

These traps are in charge of A. E. Chapman, official fly catcher, who baits the traps and empties them daily, killing the thousands of flies caught. The campaign this year will be carried farther and the disposal of rubbish will be regulated closely, all rubbish to be kept in closed boxes and all flies caught killed as the boxes are opened. The board of health believes that by these regulations the fly can be driven from the city.

**INSANITY CASE ON TRIAL TODAY**

(CONTINUED FROM PAGE ONE)  
question of the woman's sanity. Dr. Ball—"When she talked to you was she insane or angry?" Morrison—"Insane."

**Abused Buchanan**  
G. W. Buchanan, street superintendent, said he had talked to Mrs. Clayton but twice. He was never so abused in his life as on May 5 when Mrs. Clayton called him a thief, liar and a dirty low gutter-snipe. She looked like an insane person. Her eyes were wild. Her vocabulary ran out, and Buchanan asked her if he could help her out.

Tarver—"You were inspector. Did you think that pavement was all right?" Buchanan—"Yes."

Tarver—"Why was she digging that hole? Was it to see if the pavement was up to specifications?" Buchanan—"She did not say."

**Other Witnesses**  
I. N. Barnett was soon dismissed. He knew nothing about it all.

City Trustee C. C. Stoner of Orange had met Mrs. Clayton twice also. He was present when she went before the city council and accused it of getting a rake-off from Werdin. He said he could not say that she acted irrationally.

Tarver—"Didn't she merely say that it was common talk that members of the board are getting a rake-off?" Stoner—"I can't quote her exact words."

City Marshal H. S. Warner had met Mrs. Clayton but once. That was last Monday when he arrested her for cutting the pavement without a permit. Mrs. Clayton quit digging when he told her to quit and she seemed to fully understand everything he said to her.

R. C. Dalton, street superintendent, testified that Mrs. Clayton seemed to be "pretty warm" when she quit digging the hole, and turned her attention to him and Buchanan. He said Buchanan asked her if she had had a chill. She was waving her hands and acted irrationally, according to Dalton's judgment.

**Mayor on Stand**  
A. Dittmer, mayor of Orange, had talked to Mrs. Clayton twice. Once was at the meeting of the trustees when Mrs. Clayton called them "thieves and grafters" and called City Attorney W. M. Brown a "sap-head." Dittmer said that at the meeting she laughed in a silly manner. Several letters written by Mrs. Clayton to Dittmer were introduced in evidence. These letters go on at length with accusations and veiled threats of disclosure.

Tarver—"After a permit was given her to cut the pavement, the permit was revoked?" The answer was yes.

W. N. Paine testified to receiving copies of various dodgers issued by Mrs. Clayton.

City Attorney Brown detailed visits to his office paid by Mrs. Clayton in investigations and accusations against city officials.

Dr. Royer was non-committal when called as a witness.

City Trustee Guy Richards said Mrs. Clayton told him she had bought a pear-handled reedery to protect herself from deceptions by boys. Once she had said she was tired living under Dittmer's rule, and would get him one way or another. Richards said that at times Mrs. Clayton acted in an irresponsible manner. He said her visit to the council chamber brought forth strange actions by her.

Trustee E. H. Smith said that on that visit Mrs. Clayton was not rational.

"You mean she was rude," said Tarver.

"First, I voted to grant her the permit to see if her accusations were true, but when she made such a funny time I decided it was not worth while."

South said he remembered that Mrs. Clayton alleged Werdin had used river sand instead of sharp sand.

M. Rittiste, ex-city trustee, identified a threatening letter received by him from Mrs. Clayton.

"Perfectly Rational"  
That closed the case of the prosecution.

J. A. Mailles was the first witness for the defendant. He was assistant superintendent of a Nebraska insane asylum for two years. He knew Mrs. Clayton intimately for twenty years. In his opinion she has always been "perfectly rational."

G. J. Mosbaugh was called for the defense.

# RADIUM CURE OF CANCER REPORTED

Watson carries in his body a silver tube containing twenty milligrams of

weeks ago, when recognized local authorities on cancer had declared that his death was inevitable.

The radium for the operation was brought to this city by Dr. Otto Brill of Pittsburgh, who is credited with being the first man to manufacture the mineral artificially in this country. He brought one-six-hundredth of an ounce, valued at \$6666.

## SHIPPING EGGS TO EASTERN BUYERS

Old Order Is Being Reversed;  
Duane Gets Good Price for  
Fancy Product

Local poultrymen who are in the habit of thinking that the fanciest eggs should be brought from the East ought to change their notions. W. D. Duane can't see it that way. He is one of those who holds to the opinion that Orange county is the ideal place on earth for raising fancy poultry.

Today Duane made two shipments of settings, one to Crescent, Ia., and one to Saunemin, Ill., for which he gets fancy prices. The eggs are from Duane's Partridge Plymouth Rock pens.

BOARD OF SUPERVISORS

## FRANCHISE IS SOLD AT \$100

County Fire Warden Adkinson  
Instructed to Go on Duty the  
First of June

This morning the Board of Supervisors received but one bid, \$100, for the franchise asked for by the Whittier Land & Water Co. for water pipelines on county roads in the La Habra valley. The franchise was accordingly sold to the petitioner.

Begin June 1

W. E. Adkinson, county fire warden, was instructed to begin his work as warden on June 1. Adkinson has served the county for two years as warden, and is known as an unusually good man for the job.

Petitions Granted

The petition of the P. E. to make a fill on a county road at Brea was granted.

The various petitions for laying pipelines, filed by Jacob Mueller, R. K. Bishop, J. T. Carpenter Water Co., J. W. Chester and S. Townsend were granted.

A map for the abandonment of a popular avenue at Tustin was accepted. Maps of the Frostless Belt tract and Reburn's addition to Garden Grove were accepted.

The work of building the bridge across Sequoia wash in the north end of the county was reported finished, and the board accepted the bridge.

Adopt Specifications

At a meeting of the supervisors this afternoon, attended by the Highway Commission, specifications for two kinds of paving to be used on county roads were adopted.

AT THE COURTHOUSE

## RECORD IS MADE OF APPROPRIATION OF RIVER WATER

There has been recorded a notice of appropriation of 1000 miner's inches of water from the Santa Ana river, the point of diversion being at a point on the west bank of the Santa Ana river immediately below the bridge of the Santa Fe railroad north-west of Orange. The men making the filing are J. E. Parker of Batavia street, Orange, and Theo. Ford, who lives on the Anaheim road west of Orange. Both men have property near the point of diversion. The only time of the year when there is water in the river to be taken out is part of the winter.

Attachment Case

Lot 1, block C, Brea, has been attached in an action brought by Alfred Wilson against Thomas Hill for \$53.88.

Best Medicine for Colds

When a druggist recommends a remedy for cold, throat and lung troubles, you can feel sure that he knows what he is talking about. C. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial ailment and all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by all druggists.—Advertisement

POPE NOT ABLE TO HOLD AUDIENCES

Official Vatican Organ Gives  
Out Information as to  
Pope's Condition

ROME, May 7.—The official Vatican organ, "Osservatore Romano," said last night:

"Some of the newspapers have been inexact in accounts of the illness of His Holiness. His condition, although excellent considering his recent illness, obliges him to follow a special regime. Therefore the Pontiff has neither gone into the Vatican gardens nor is he about to resume his audiences with pilgrims, wherein he is following the orders of his doctors."
